

The after school program provides activities for adults as well as for school students.

Adults attending the activities at Bethel HS completed a survey providing feedback on what was offered.

28 surveys were returned. The table below shows the activities provided in Fall 2011 and the number of persons attending each.

Activity	No. Attendees
Family Reading	0
Financial Aid	23
FAFSA	0
College Info/Applications	0
Club Invent	0

The adults were asked whether, for each activity:

- Did you enjoy taking part in this activity?
- Did you find this to be a useful/helpful activity?
- Do you plan to attend another of these activities?
- What did you like MOST about this activity?
- What about this activity would you like to see changed/improved?

A YES response was assigned a value of 1 in the coding. The table below shows that all of the adults responded YES to each question. It is therefore concluded that the adults were positive about each activity.

Session	No. of Attendees	Number of "Yes" responses					
		Enjoyed taking part		Useful/helpful		Plan to attend another
